

# Industrial Assessment Centers (IAC) Implementation Grants

Office of Manufacturing and Energy Supply Chains  
Undersecretary for Infrastructure, DOE

October 19<sup>th</sup>, 2023

# Welcome!

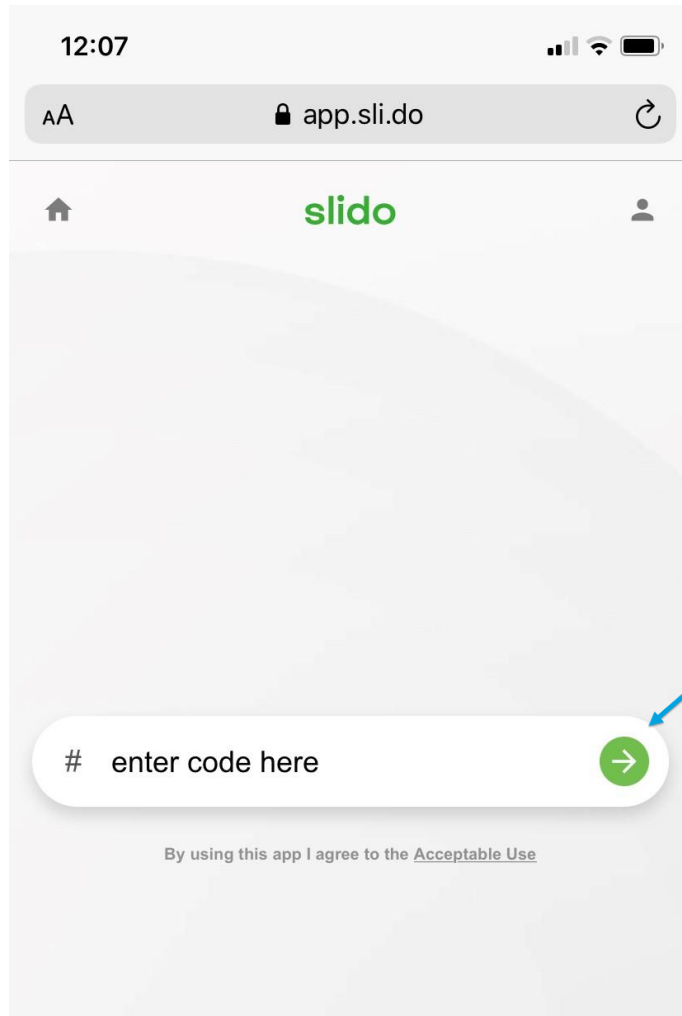

**This webinar is being recorded and will be published online**

- If you do not wish to have your voice recorded, please do not speak during the call
- If you do not wish to have your image recorded, please turn off your camera or participate by phone
- If you speak during the call or use a video connection, you are presumed to consent to recording and use of your voice or image

**Please mute your phones and we'll begin momentarily**

# Submit Questions in Slido

Visit <https://app.sli.do/event/rnQSBSKV5URkEcHP19L9h3>  
or scan the QR code below

OR go to [www.slido.com](https://www.slido.com)  
using your mobile device or web browser and **enter event code**  
**# Oct19OfficeHours**

Select the room that fits your question (Workstream 1:  
Implementation Grants Applications or Workstream 2:  
Third-Party Assessor Applications)

Send **technical assistance** questions in  
Teams Chat to [Host](#).

# IAC Implementation Grants Open Solicitation

~\$80M in funding available

Grants awards of up to \$300,000 per manufacturer, at a 50% cost share;  
Criteria: 50% impact/feasibility; 25% financial need + cost share; 25% community benefits

Eligibility exclusively for small- and medium-sized<sup>1</sup> manufacturing firms & water treatment facilities

To address recommendations by IACs, DOE Combined Heat and Power TA Partnerships, or other assessments deemed equivalent by DOE\*

*1. Small and medium-sized manufacturer is a firm with: a gross annual sales of less than \$100M, fewer than 500 employees at the plant site, and annual energy bills between \$100,000 - \$3,500,000*

# Overview: Industrial Assessment Centers (IACs)

## IAC Program

- **37 universities** around the country have conducted over **20,000 IAC assessments** over more than 40 years
- The program provides technical assistance to small- and medium-sized manufacturing firms while training the next generation of energy-savvy engineers
- Assessments typically identify **>\$130K in potential annual savings**, with **~\$50K implemented** in the first year – and the potential for much more with the implementation grants

To learn more and apply for an IAC assessment, visit [iac.university](https://iac.university)

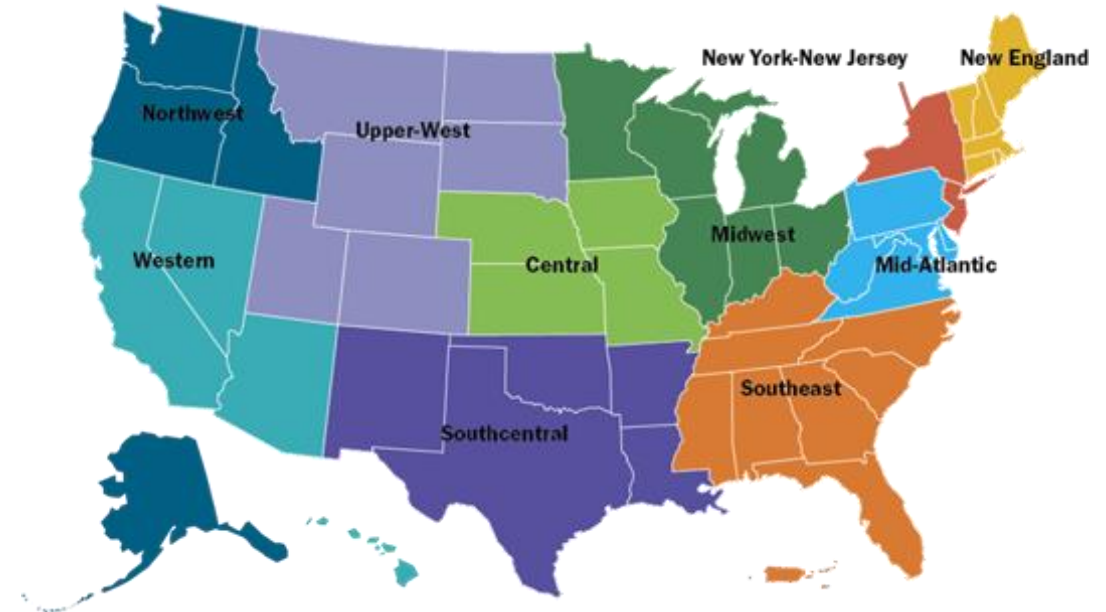

**MESC**  
OFFICE OF MANUFACTURING AND ENERGY SUPPLY CHAINS

# Overview: Combined Heat and Power Technical Assistance Partnerships (CHP TAPs)

## CHP TAP Program

- **10 regional entities** around the country have conducted **>1000 technical screenings** over the past 5 years
- Partner with manufacturers to identify cost effective & resilient ways to deploy combined heat & power (CHP)
- Identify and address barriers to using CHPs to advance regional efficiency, promote energy independence, & enhance the nation's grid resiliency

To learn more and apply for a CHP TAP assessment, visit  
<https://betterbuildingssolutioncenter.energy.gov/chp/chp-taps>

**MESC**  
OFFICE OF MANUFACTURING AND ENERGY SUPPLY CHAINS

## What is a covered project under the IAC Implementation Grants Program?

Improve site energy and/or material efficiency

Improve site cybersecurity infrastructure

Improve site productivity

Reduce site waste production

Reduce site greenhouse gas emissions and/or nongreenhouse gas pollution

# IAC Implementation Grants Opportunity: Two parallel workstreams

## Workstream 1: Implementation Grants

Provide **federal funding** to eligible SMMs to implement recommendations made **in IAC or CHP TAP assessments** starting in 2018, or **qualified third-party assessments** starting in 2021

## Workstream 2: Third-Party Assessor Qualification

Identify entities interested in qualifying as a “**third-party assessor that provides an assessment equivalent**” to an IAC or CHP TAP assessment

# Relaunch of the IAC Implementation Grants Program

## What's new in the latest relaunch of the IAC Implementation Grants Program?

Adopted a rolling application

---

Established pre-determined time intervals for  
application review (e.g., quarterly)

---

Clarified eligibility criteria

---

Streamlined landing page & application  
forms

---

Hosting monthly office hour sessions

# Updated Application Design: Workstream 1

## Grant Funding Request

What is the total funding requested from DOE (excluding any funding your company will provide or that will come from non-DOE sources)? \*

Using information from the assessment report, please specify the recommendations from either the IAC, CHP TAP, or qualified third-party assessment report with relevant descriptions in the table. \*

	A	B	C	D	E
	Recommendation Description	Estimated Implementation Cost for Each Recommendation	Annual Cost Savings Recommendation	ABC Code / CHP TAP Identifier (optional)	Comments (e.g., explain if cost differs from assessment report)
1					
2					
3					
4					
5					
6					
7					
8					
9					

Embedded table & questions to simplify grant funding request

## Entity Information

What entity conducted this facility's assessment? \*

In 3-5 sentences, please tell us about your company including - manufacturing sector, manufactured product lines, overall manufacturing network, etc. \*

Address of Assessed Facility \*

City \*

State \*

Zip \*

Targeted questions to get further detail on firm and facility operation

## Entity Eligibility

Annual gross sales (\$/yr) of the manufacturer/company in the year assessment was conducted? \*

☐ \$0 - \$1,000,000

☐ \$1,000,001 - \$50,000,000

☐ \$50,000,001 - \$100,000,000

☐ > \$100,000,000

Note: A manufacturer/company can be an entity that engages in the mechanical, physical, or chemical transformation of materials, substances, or components into new products. Additionally, an entity that files taxes separately.

If a manufacturer/company is a subsidiary or LLC under a holding company that pays taxes separately from the holding company, please use the manufacturer/company gross sales figures, not the holding company gross sales.

(Optional) Annual gross sales (\$/yr) of the manufacturer/company in the last full fiscal year of operation?

☐ \$0 - \$1,000,000

☐ \$1,000,001 - \$50,000,000

☐ \$50,000,001 - \$100,000,000

☐ > \$100,000,000

Note: A manufacturer/company can be an entity that engages in the mechanical, physical, or chemical transformation of materials, substances, or components into new products. Additionally, an entity that files taxes separately.

If a manufacturer/company is a subsidiary or LLC under a holding company that pays taxes separately from the holding company, please use the manufacturer/company gross sales figures, not the holding company gross sales.

Curated questions to help minimize eligibility barriers for grant funding

## Project Narrative

Project Narrative Questions

Please provide 1-2 paragraphs for each of the 3 questions below

1. Project overview: Please describe the overall technical scope and objectives for the proposed project - including workplan, timelines, & resourcing requirements. \*

2. Need for financial assistance: Please describe the impact that DOE funding will have on the project implementation, and why it cannot be funded wholly through other sources. Describe any efforts to secure other funding (e.g., loans, energy service contracts, etc.) and plans for other funding mechanisms to support the proposed project. \*

Note: For any efforts to secure other sources of funding (e.g., loans, energy service contracts, etc.) - please upload supporting documentation (e.g., secured funding confirmation letters) as applicable in the optional field after the Project Narrative section. \*If applicable, if not applicable please explain why above.

Simplified Project Narrative to guide applicants to creating a complete proposal

# Updated Application Design: Workstream 2

## Assessment Capabilities

On average, roughly how many energy assessments do you conduct per year for small and medium-sized manufacturers? \*

☐ 0-10  
☐ 10-20  
☐ 20-30  
☐ 30 +

Is there a cost to recipients who receive an assessment from you? \*

☐ Yes  
☐ No

Do you support assessment recipients in implementing recommended projects? \*

☐ Yes  
☒ No

Does your assessment consider multiple systems, technologies, and solutions? \*

☐ Yes  
☐ No

Directed questions to collect additional information on assessor's assessment scope, protocol, and capabilities

## Sample Assessments

**Supplementary Documentation**  
Please share 2-3 samples of assessment reports since January 2021. If applicable, please be sure to include samples of both in-person and virtual types of assessment reports in the submission

**Upload Sample 1 \***

Choose File

Upload a file. No files have been attached yet.  
Acceptable file types: .doc, .docx, .pdf

**Upload Sample 2 \***

Choose File

Upload a file. No files have been attached yet.  
Acceptable file types: .doc, .docx, .pdf

**Upload Sample 3**

Choose File

Upload a file. No files have been attached yet.  
Acceptable file types: .doc, .docx, .pdf

**Notes:** If your entity conducts both virtual and in-person assessments, please be sure to include samples of both type of assessment reports in the submission.

Request for assessment reports including - detail on key activities, proposed recommendations, est. implementation costs & savings

## Project Narrative

**Project Narrative Questions**

Provide an overview of the organization – including type of assessments the applicant conducts, key assessment experience (e.g., number of assessments conducted over the past 5 years, realized savings for clients), and typical assessment clients. Additionally, how the organization may be a good fit as an "IAC-equivalent" assessor. \*

Please provide 1-2 paragraphs.

**Note:** See [here](#) for more information on the IAC assessment protocol.

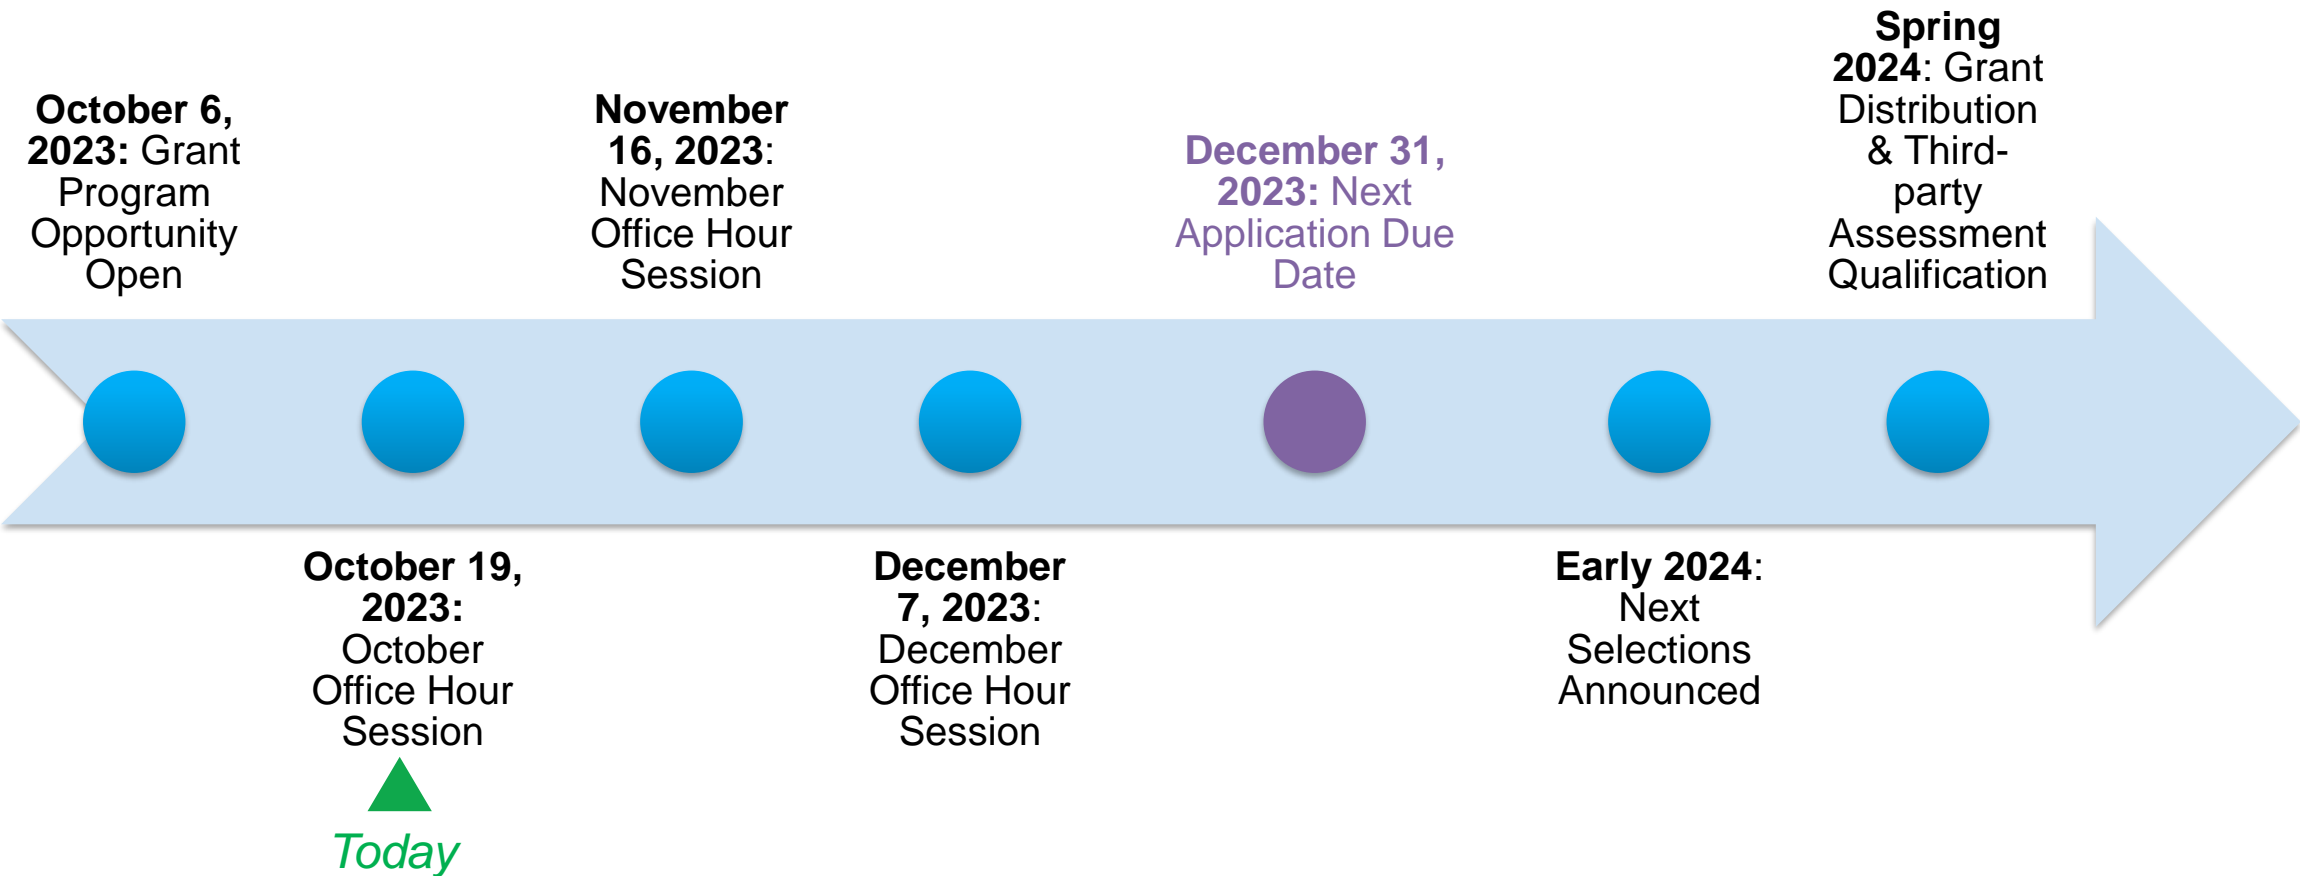

Provide detail on the key assessment activities and protocols with clients – this may include information on type of personnel conducting assessments, whether assessments are conducted in person or virtually, reporting of assessment results or post assessments. \*

Please provide 1-2 paragraphs.

Simplified Project Narrative to minimize burden on applicants while ensuring critical information is collected

# Appendix

# Workstream 1: Grants to implement recommendations made in IAC, CHP TAP, and qualified third-party assessments

**Grant funding available: ~\$75 million**

## Applications will be screened for initial eligibility ...

- Applicant has a gross annual sales <\$100M<sup>1</sup>
- <500 employees at site of interest
- Site annual energy bills between \$100,000 - \$3,500,000
- Manufacturer is a domestic entity & received an IAC or CHP TAP assessment since 2018
- Manufacturer is a domestic entity & received a qualified third-party assessment since 2021
- Proposed project address energy management, waste reduction, or productivity improvement recommendations
- At least one project that aligns with the goal of achieving a net-zero GHG emissions economy

## ...and further evaluated against the following criteria

- **Impact & Feasibility (50%)**
  - The degree to which proposed projects has on the site's productivity, economics, energy and emissions performance
- **Financial Assistance Need & Cost Share (25%)**
  - The degree to which to which the applicant demonstrates financial need of grant funding to execute proposed projects
- **Community Benefits (25%)**
  - The degree to which the proposed project will provide a positive environmental and economical benefit to the surrounding community

**Learn more and apply by December 31<sup>st</sup>, 2023 [here](#)**

**MESC**  
OFFICE OF MANUFACTURING AND ENERGY SUPPLY CHAINS

*1. If the manufacturer/facility is an individual LLC that pays separate taxes from the parent company, then the eligibility is based on the LLC and not the parent company*

# Workstream 2: IAC Implementation Grants focusing on qualifying third-party assessors for future rounds

**Qualify entities/organizations that execute energy assessments for manufacturers...**

- 1 Manufacturing Extension Partnerships (MEPs)
- 2 Better Plants In-Plant Trainings
- 3 Utility Companies
- 4 Engineering Consulting Firms
- 5 Other Private Sectors

**... and meet the following eligibility criteria to ensure equivalency of DOE assessments**

## Initial Eligibility Criteria

- 1 Assessment protocol & implementation recommendations are vendor agnostic and not limited to on set of technology areas
- 2 Generates final reporting that captures information on implementation costs, benefits, plant process, etc.
- 3 Assessment leverages key plant personnel: Plant Manager, Energy Manager, Engineering Personnel
- 4 Assessor conducts yearly follow up to track implementation status of projects
- 5 Assessor is willing to share assessment protocol and interact with DOE and regional IACs

**Learn more and apply by December 31<sup>st</sup>, 2023 [here](#)**

**MESC**  
OFFICE OF MANUFACTURING AND ENERGY SUPPLY CHAINS

# Cost Share Requirements: 50% cost share required for applicants

This non-federal share is **calculated as a percentage of the Total Project Cost**

*For example: Project(s) with Total Project Costs of \$200,000 would require a \$100,000 non-federal share of costs in order to have a 50% cost share.*

## Allowable Types of Cost Share

- ✓ Cash Contributions
- ✓ In-Kind Contributions
- ✓ Unrecovered Indirect Costs (with prior approval)

## Generally Prohibited Costs

- ✗ Costs paid by federal government under another award
- ✗ Costs prior to the signing of the Selection Statement
- ✗ Fee or profit, including foregone fee or profits

## Financing options<sup>1</sup>

## Description

### State and Local Public Programs<sup>2</sup>

- Loans and/or grants from local/state government entities

### Private Loans (Incl. SBA-Guaranteed)

- Borrow money directly from banks or other private lenders

### Utility Programs

- **On-bill financing:** Capital provided for project repaid via existing utility bill
- **Rebate Programs:** Credit for installing energy efficient equipment

### Leases

- Lease necessary equipment without purchasing outright

### Energy Savings Performance Contracts (ESPC)

- Energy service company (ESCO) installs & maintains project equipment at facility, and is paid through realized savings

1. Not exhaustive of all financing options  
2. Ensuring that funding does not originate from federal funding

# Community Benefits: Priorities to build a clean & equitable energy economy

## Justice40

Meet or exceed the objectives of the Justice40 initiative that **40% of benefits accrue to disadvantaged communities** across the country

## Diversity, Equity, Inclusion, and Accessibility

Equitable **access to wealth building opportunities** (teaming, access to **good jobs**, business and contracting opportunities, etc.)

## Good Jobs

Create **good-paying jobs to attract and retain skilled workers** and ensure workers have a **voice on the job over decisions that affect them**

## Workforce and Community Agreements

Meaningful **engagement with community and labor partners** leading to formal agreements
